

**ADDENDUM #3
TO SPEC. 05-053**

**Request for Proposal
CONSULTING SERVICES FOR
AUTOMATED VEHICLE LOCATION SYSTEM**

Addendum #3 to Spec. 05-053 for above project scheduled to be opened on Wednesday, March 30, 2005 at 12:00 noon has been **DELAYED**. The new closing date for this Request for Proposals will be **Wednesday, April 13, 2005 at 12:00 Noon**.

The following question has been asked regarding the following paragraph in addendum #2:

“Firms also must submit NDOR Form DR498 – “Architecture, Engineer and Related Services Questionnaire and Application Detail supplement. This procedure also requires proposals from at least three firms certified by the NDOR.”

Question: Why is it required for this type of service to be a certified Engineer and what is the process to be certified by NDOR?

Response: This project is funded by Nebraska Department of Roads and we are required to follow their bidding requirements which include the above requirements.

Form DR498 may be found at:

<http://www.dor.state.ne.us/rfp/downloads/pdf/dr498.pdf>

To register and be certified go to the following website and follow the instructions under “doing business”.

<http://www.dor.state.ne.us>

Statement: Successful firm will be required to be certified by NDOR prior to entering into a contract or be partnered/associated with someone who has said certification.

Statement: The RFP requested that 2 copies of the proposal be submitted. This number is changed, it is requested that a total of five (5) copies be submitted.

All other terms and conditions to remain unchanged.

Dated this 24th day of March, 2005.
